

TECHNICAL FILE

SCREWDRIVERS

Oversized ergonomic & anti-slippery handles offer optimal grip for avoiding slippage.

Its exclusive chrome-molybdenum-vanadium (Mastertork type) alloy enables 30% higher tightening than traditional screwdrivers.

The innovative "non-slip" anti-slippery and magnetic tip system allow an easier and safer positioning of the screwdriver, avoiding undesired slides.

Type and size double marking of easy and efficient identification of the screwdriver to be used.

Hexagonal bar screwdrivers available for strong tightening with wrenches.

Go-through hole in the handle enables tommy bar using.

MASTERTORK Cr-Mo-V
